WHEREAS, Fountain Street between Avon Avenue and an old property line about 120 feet north of Rose Street except that portion of Fountain Street included within the present limits of Barclay Street and Rose Street, was laid out as a public street on a map entitled "Map of C. Hebdon's property," Page 4, Book of Private Maps, in the office of the Chief Engineer, January, 1854, surveyed by Dunn & Thompson, and also shown on a map on file with the Fidelity Trust Company, known as Map No. 457; said street being also shown on a map on file in the office of the Chief Engineer, known as No. 1183-V;

AND WHEREAS, The above described portion of Fountain Street has never been accepted or opened by the City of Newark since the said dedication;

AND WHEREAS, Application has been made to this Board of Commissioners to release and extinguish the public interest, if any, arising from such dedication;

AND WHEREAS, Under the provisions of Article 22, Section 4, of

an act of the Legislature of the State of New Jersey, entitled "An Act Concerning Municipalities," approved March 27th, 1917, and the acts amendatory thereof and supplementary thereto, this Board is empowered, after public hearing, by ordinance, to release and extinguish the public interest arising from such dedication;

AND WHEREAS, It appears to this Board of Commissioners that such portion of Fountain Street between Avon Avenue and an old property line about 120 feet north of Rose Street except that portion of Fountain Street included within the present limits of Barclay Street and Rose Street will not be a public benefit and that the public interest will be better served by releasing said lands from such dedication;

THEREFORE, BE IT RESOLVED, By the Board of Commissioners of The City of Newark, that an ordinance releasing and extinguishing the public interest arising from the dedication of said portion of Fountain Street, be taken up for consideration at a meeting to be held on Thursday, June 27th, 1918, in the Board meeting room, second floor, City Hall, at 11 o'clock a. m., and that the Chief Engineer of the Department of Streets and Public Improvements is hereby directed to give notice by publication in one of the official newspapers, for one day at least ten days before said June 27th, 1918, of the intention of the Board so to do.

WHEREAS, The contract for paving and repaving Ogden Street from Clay Street to Oriental Street was awarded to Alexander J. Milmoe on May 11, 1916; and

WHEREAS, The time allowance for the completion of the above work was 125 days and the actual time consumed in the performance of the contract was 220 days; and

WHEREAS, The contractor was requested by the Board of Street and Water Commissioners not to start work until after October 1, 1916, on account of the celebration of the 250th Anniversary of the settlement of Newark; and

WHEREAS, On account of the shortage of labor and material nothing was done during 1916 but the setting of some 3,000 feet of curbing during November of that year; and

WHEREAS, After the Declaration of War in April, 1917, it was almost impossible to secure cars at the North Carolina Granite quarries for the shipment of granite blocks or curbing on account of the embargo on cars instituted by the U. S. Government; and

WHEREAS, The contractor used his utmost endeavor to complete the contract within the allotted time and would have succeeded in doing so under ordinary circumstances;

THEREFORE, BE IT RESOLVED, That all penalties incurred by reason of the 95 days' excessive time needed to complete this contract be and the same are hereby remitted.

The following communication was received and read:

Department of Public Safety,
City Hall, Newark, N. J.,
June 6, 1918.

To the Board of Commissioners of the City of Newark, N. J.

Gentlemen:

As Director of Public Safety, it is imperative that I call to your attention a serious situation confronting the department under my supervision. Owing to conditions over which we have no control, the uniformed divisions of my department are dangerously undermanned.

In these abnormal times men in all walks of life are obliged to obtain a salary or wage commensurate with the ever-rising cost of life's necessities, and the employees of our city are no exception to the rule. The wage paid by the industrial concerns in our city and vicinity is naturally attracting men who are eligible for service in the uniformed forces of my department to such an extent that I must appeal for immediate help.

The selective draft, as well as numerous resignations of men who were able to obtain more remunerative employment, has had the most serious effect upon the department. In our efforts to exhaust the Civil Service lists to obtain men we have received a number of replies that the

eligibles could not accept the positions because of the limited amount of pay.

On account of the aforementioned conditions, I therefore present for your favorable consideration an ordinance which, if adopted, will in my opinion attract to the city service men capable of giving to the citizens that service to which they are entitled for the security of their lives and property.

While I keenly realize the additional financial requirements necessary to carry out the proposed increases in salary, nevertheless in these abnormal times I feel the taxpayers will realize the exigency of the situation and be willing to place the public servants of our municipality on a par with those of surrounding cities.

I desire to have it distinctly understood that the proposed increases have not been advocated by any influence from within the department or otherwise. They are prompted solely to meet a condition unforeseen six months ago and which, in my opinion, warrants your unanimous approval.

Yours sincerely,
William J. Brennan,
Director of Public Safety.

Commissioner Brennan offered the following ordinance, which was read by the Clerk:

"An Ordinance relating to and fixing the salaries of certain officers and employees of the Divisions of Fire and Police of the Department of Public Safety of the City of Newark."

Commissioner Brennan: I have had under consideration for some time the introduction of an ordinance increasing the salaries of men in the uniformed departments of the city. I desire to have this ordinance read on first reading at this time.

My reason for offering this ordinance today and using this particular method to provide for increases in salary is that in the event

any of the commissioners, citizens and others desiring to have amendments thereto may have an opportunity to scrutinize same and on second reading come forth with their amendments. I also desire to give the public at large an opportunity of seeing what is proposed. The salaries mentioned, as set forth in the ordinance, are the same as are now paid or have been paid since March 1st in Jersey City. I feel that the city must do something to retain the men in the uniformed departments to properly provide the city with a Department of Public Safety in the Police and Fire Departments, and I feel that if Jersey City is able to pay the salaries mentioned to each policeman and fireman that Newark, being the first city of the State, should be in a position to do likewise. I realize what this is going to mean to the taxpayers, but I feel that the policemen and firemen feel keenly the increased cost of living just as much as any of us. It is absolutely impossible for the men to live and retain their standing in the departments on the salaries they are now receiving. I present this for first reading today and I desire to have further action postponed until June 27th, at which time amendments, if any, may be presented and discussed before ordering it to a third and final reading. Under the law of 1918, known as the Pierson Act, temporary loan bonds can be issued to meet the required salaries for the remainder of this year. Mr. Brady, however, informs me that such temporary loan will have to be put in next year's budget appropriation.

The difficulty is to get men to accept positions in the uniformed departments at \$900 per year. They are compelled to spend from \$50 to \$57 for their summer uniforms and later on are compelled to spend more money for winter uniforms. Men working in the ship yards and some of the other manufacturing plants are receiving considerably more than we are offering to the policemen and

firemen without having to provide themselves with anything more than a suit of overalls. When the Civil Service Commission, in response to a request from the Commissioner of Jersey City, held a qualifying examination for men over the draft age for service in the Police and Fire Departments they were only able to get seventeen men even at the \$1,400 rate.

Let the public sentiment express itself and let us see what the public thinks of it; in other words, let the public sentiment express itself for or against the proposed ordinance. I am perfectly frank in openly stating that while the matter can be referred to a referendum, I do not feel that the Departments should become involved directly in a political proposition if I can possibly avoid it, and I feel that under the proposed plan the public can express itself as to whether they are opposed or otherwise to the proposed increase. If they show a disposition to oppose it to the extent where I will not be enabled to act upon it and our department becomes impaired through lack of uniformed members to properly operate it, I feel that I am not to be held responsible for the condition, or this Commission will not be responsible.

Commissioner Raymond offered the following resolution:

RESOLVED, That an ordinance entitled "An Ordinance relating to and fixing the salaries of certain officers and employees of the Divisions of Fire and Police of the Department of Public Safety of the City of Newark" be published in its entirety in each daily newspaper and in the Sunday newspapers, and that said publication be accompanied by the statement made by the Director of Public Safety with regard thereto, and that notice accompany said advertisement that the ordinance will be taken up for second reading at a meeting of the Commission on June 27th, 1918.

Commissioner Raymond offered the following resolutions:

After a period of ten years, during which the Administrative and Executive Officials of the Newark Fire Department have repeatedly and consistently urged the acquisition of a fire boat, the need of which was conceded to be absolutely imperative, William J. Brennan, Director of Public Safety, has, mainly through his own efforts, initiative and foresight, succeeded in making an actuality of what had formerly been but an abstract idea, for on Saturday, June 8th, 1918, the Director placed in commission Newark's first Fire Boat.

Now, whereas, this achievement can but redound to the benefit of Newark, and in recognition of the merit attaching to Director Brennan's accomplishment which affects even national interests of a most vital character because of the more adequate fire protection given to the United States Government Shipyards and allied industries now situate in and about Newark; it is

RESOLVED, That it is the sense of this Commission that no more fitting memorial of the occasion of the acquirement by Newark of a fire boat can be observed than by bestowing upon the boat the name of him who gave to the Newark Fire Department the nucleus of its marine service; and it is further

RESOLVED, That in view of Director Brennan's absolute refusal to countenance any change in the present name of the fire boat, now registered as Christina Baird, that this Commission in the absence of Director Brennan hereby exercises the privilege of naming Newark's first fire boat "William J. Brennan," in honor of the Director of Public Safety.

Commissioner Archibald moved that the bids be referred to the Department of Public Safety for tabulation and report.

The roll being called, the motion was declared adopted by the following votes:

Yea — Commissioners Archibald, Brennan, Monahan, Raymond, Mayor Gillen.

Mayor Gillen: The Board is now prepared to listen to citizens on the salary raises for the Police and Fire Departments.

Mr. King, of the firm of Eisele & King, stated it afforded him unbounded pleasure to have the privilege of appearing before the Board

in reference to increases for policemen and firemen. He stated that he considered the increases asked for very moderate, and in view of the high cost of living he urged the Board to grant the increases at once.

At 11:30 a. m. Mayor Gillen announced that bids would be received for construction of a sewer in Passaic Avenue, as advertised for, until 11:45.

Mr. William F. Hoffman stated that he realized it was a physical impossibility to get first rate men to accept positions at \$900 per year, particularly at the present time, on account of the high cost of living. He stated that the Fire and Police Departments will be in very bad shape unless something is done to increase the salaries of the employees in these departments.

Mr. Edward Blau, representing the Federation of Improvement Societies of the City of Newark, stated that the Federation represents nearly all sections of the city and at their last meeting, which was attended by all but two delegates, it was unanimously decided to have a committee appear before the Board of Commissioners to express the sentiments of the taxpayers of the city. He stated the delegation represented here today are anxious to see the salaries of all employees in the Police and Fire Departments gradually raised to \$1,500 per year; that they object to employees receiving more than this amount on account of the very high tax rate. The raise, if granted, would approximately amount to \$400,000, he said, which would mean a 10 per cent. increase in the present tax rate.

Mr. Felix Fuld, representing L. Bamberger & Company, stated that he was a large employer of labor himself; that he knew the policemen and firemen were doing very good work for the city in protecting the homes and citizens. He urged the Board to grant the increases without delay.

Mr. Henry Hebeler, representing

the Building Trades Council, stated that at a meeting held last Wednesday they went on record as favoring the increases in salary for the policemen and firemen. He stated that it was a well-known fact that there are a great many policemen and firemen in service who are mechanics, and that mechanics on the outside are receiving far more consideration than these men in the city employ.

Mr. John Marlove, residing at 657 South 19th Street, opposed the increases on the ground that he was not able to realize 6% on his real estate investments.

In answer to a question from Commissioner Raymond as to whether or not he raised the rent of his tenants since the war began, he stated that he had raised the rent \$2.00 per month. Mr. Marlove stated he had sixty tenants.

Commissioner Brennan stated that it was impossible to obtain men for the Police and Fire Departments at the salaries being paid at the present time; that one hundred and fifty letters had recently been mailed from his office offering positions to men who had successfully passed the civil service examinations, and only forty-one men signified their willingness to accept the appointment at the salaries now paid. Of the forty-one appointed within the past two weeks, he said, eighteen of them departed last Tuesday morning for different cantonments. He stated that unless better inducements were offered to men in the Police and Fire Departments it would be difficult to properly operate these departments owing to the lack of men.

Mr. Benjamin F. Biershing, chairman of the Citizens' League, stated that the League did not oppose granting increases to the policemen and firemen, realizing that the men performed splendid services for the city and therefore were entitled to more remuneration. He suggested that the Board abolish the position of Lieutenants and make them Cap-

tains. He stated that the League opposed granting a \$1,000 increase for the battalion chiefs in the Fire Department, claiming this was somewhat high and should be divided so that the other employees received at least some part of it.

At 11:45 a. m. Mayor Gillen declared the receipt of bids for construction of a sewer in Passaic Avenue closed.

Three bids were received.

CONSTRUCTION OF A SEWER IN
PASSAIC AVENUE BETWEEN
CHAPEL AND FERRY
STREETS.

Atlas Contracting Company, \$9,-
758.90.

Jacob Jacques, \$8,671.00.

Peter D'Amato, \$11,722.00.

Commissioner Brennan moved that the bids be referred to the Department of Streets and Public Improvements for tabulation and report.

The roll being called, the motion was declared adopted by the following votes:

Yeas — Commissioners Archibald, Brennan, Monahan, Raymond, Mayor Gillen.

Mr. David Harper stated that he thought the City of Newark had the best Police and Fire Departments in this country, and that he was satisfied the policemen or firemen could not live on less than \$1,200 per year. As for the men who are receiving more than \$1,500 per year, he stated the Commissioners are big enough and possess enough knowledge to know whether or not they are entitled to more compensation, and he therefore was perfectly willing to leave the matter entirely in the hands of the Board.

Mr. Frank A. Fetridge, representing the Building Trades Council, and C. I. Linnell, of 305 Woodside Avenue, stated that the city is obliged to pay the salaries asked for if they intend to maintain the standard of efficiency now in effect. They stated that the men are entitled to be compensated in proportion to the responsibilities and qualifications, and

they did not think there is a citizen in the city who would raise his voice against the increasing of salaries of these men.

Dr. W. G. Hanrahan offered the following resolution, which was read by the Clerk:

WHEREAS, there is a general shortage of coal, and a much further shortage is anticipated, which will entail a great financial loss to business and a greater privation and suffering among all classes of our people than endured last winter; therefore, be it

RESOLVED, We, the Federation of Improvement Associations, respectfully request our City Commissioners to try and devise ways and means in the conservation of coal by passing an ordinance to do away with unnecessary electric light advertising such as not used directly in business and to request business men and home representatives to conserve in every way by reducing to a minimum their needs for light, heat and power and to communicate with National and State Fuel Administrators Dr. Harry Garfield and Richard C. Jenkinson to give greater momentum to this movement and try to make it nation wide.

Mayor Gillen: In connection with this coal proposition, about two weeks ago I took the coal question up with the local fuel administrator, Mr. Hines, and asked him if his department would have any objection to the city purchasing a large supply of coal to take care of the extreme cases in the winter. I have received no sanction from the fuel administrator yet and we cannot do anything until such time as we do. If we get the authority from the fuel administrator we ought to buy some coal and store it. There will be a lot of extreme cases.

Commissioner Archibald moved that this resolution be referred to the Law Department for a written

opinion as to the power of the city to purchase coal for distribution during the winter.
